

FOR IMMEDIATE RELEASE

FILIPP JENIKÄE: FIGURES IN MOTION AND PLACES REMEMBERED 7 March – 18 April 2026 Galerie Sara Lily Perez, Berlin

BERLIN, GERMANY – Galerie Sara Lily Perez is pleased to announce *Figures in Motion and Places Remembered*, an exhibition of new paintings by German contemporary artist Filipp Jenikäe. On view from 7 March to 18 April 2026, this presentation marks the artist's first solo exhibition with the gallery. Bringing together a significant body of work produced in 2025, the exhibition offers a profound investigation into contemporary urban life, exploring the intricate dynamics of architecture, spectatorship, and collective space.

In *Figures in Motion and Places Remembered*, Jenikäe navigates the porous boundaries between collective spectacle and intimate recollection. His latest works feature layered compositions where street façades, high-rise corridors, public leisure environments, and stadium crowds unfold across a single, dynamic plane. Within these rhythmically composed spaces, signage, structural geometry, and human movement occupy the same visual field. Rather than rendering these subjects as static, documentary representations, Jenikäe treats them as fluid, constructed recollections.

Cities and environments in Jenikäe's work appear not as fixed landmarks, but as accumulations of image, rhythm, and lived experience. By placing spectacle and everyday life on equal footing, the artist reveals how human memory is shaped through the repetition and constant circulation of visual media. Ultimately, the figures and environments in these paintings are not anchored in a specific temporality; rather, they are carried forward, distorted, and elevated by the mechanics of memory itself.

An opening reception will be held at the gallery on Friday, 6 March 2026.

About Filipp Jenikäe Filipp Jenikäe (b. 1987) is a German painter known for his vibrant, large-scale acrylic works that document the pulse of contemporary life. Raised in a family of art educators, Jenikäe initially pursued a different path, studying Law and Political Science at UAB Barcelona and Business Administration in the Netherlands. His artistic practice emerged later in life, crystallizing in Berlin around 2017 following the end of his childhood dream to play professional basketball.

Jenikäe's work is characterized by a "sampling" aesthetic, a method he compares to DJing, where visual fragments from urban landscapes, pop culture, and sports history are remixed into cohesive, neo-expressionist compositions. His canvases often depict the communal euphoria of social spaces: nightclubs, bars, and city backyards, alongside portraits of cultural icons ranging from athletes to musicians.

Influenced by the bold coloration of David Hockney and the narrative figuration of Henry Taylor and Nina Chanel Abney, Jenikäe's work bridges the gap between the immediacy of street culture and the tradition of genre painting. His works have been exhibited internationally, with representation in Paris, Hong Kong, and the United States, and have been featured at major auction houses including Sotheby's and Phillips.

About Galerie Sara Lily Perez Founded in 2021 by Sara Lily Perez, Galerie SLP is a contemporary art gallery based in Berlin. The gallery is dedicated to advancing the dialogue between contemporary art and pressing social and environmental issues. Operating from its exhibition space in BIKINI BERLIN, Galerie Sara Lily Perez represents a diverse roster of emerging and established international artists working across painting, sculpture, digital media, and photography. Through a rigorous program of curated exhibitions, institutional collaborations, and public programming, the gallery fosters critical engagement and champions art as a catalyst for social change.
